My deadline is tomorrow at 2 p.m. and I can be reached at 219-933-3316.

What is the EPA currently doing in regards to the BP oil spill in Lake Michigan? Were any regulations violated? Are any enforcement actions being pursued or contemplated? What is the scope of the investigation, and what progress has been made thus far? What preventative measures are taking place to ensure it won't happen again?

When will the follow-up inspection of the lake and shoreline take place this summer, and what is the purpose of that? Why such a long waiting period?
